About Elastostar

At Elastostar, we stand as a distinguished **extruded and molded silicone rubber manufacturer**, specializing in crafting top-tier custom and standard size extruded rubber profiles and molded silicone rubber parts.

Our journey began with a simple yet powerful vision: to provide cutting-edge elastomeric solutions that enhance industries and businesses worldwide. With years of experience and a passionate team of experts, we've evolved into a trusted leader in the elastomer industry. Our relentless pursuit of quality and innovation drives us to deliver products that exceed expectations and solve complex challenges.

We take pride in our ability to adapt, evolve, and create customized solutions tailored to your unique needs. Elastostar is more than just a brand; we're your partner in progress, working tirelessly to help you succeed.

Join us on this incredible journey, and experience the difference that quality, innovation, and dedication make.

Mission

At Elastostar, our mission is to be a trailblazing force in the elastomer industry, driven by innovation and a steadfast commitment to our customers.

We strive to continually advance the frontiers of extruded silicone rubber manufacturing, delivering cutting-edge extruded rubber profiles, and bespoke custom silicone rubber solutions. Our unwavering dedication to quality, precision, and adaptability fuels our passion for helping businesses across the globe thrive.

Quality Policy

At Elastostar, our commitment to excellence is the cornerstone of our operations. We are dedicated to consistently delivering ISO standard and high-quality extruded silicone rubber products, precision-crafted custom extruded rubber profiles, and molded silicone rubber parts that exceed industry standards. Our unwavering focus on quality is rooted in a culture of continuous improvement, where every member of our team is empowered to contribute to the pursuit of perfection. We prioritize customer satisfaction, product reliability, and innovation, ensuring that our clients receive the finest elastomeric solutions available.

Vision

Our vision at Elastostar is to redefine the possibilities within the elastomer industry. We aspire to be the go-to destination for extruded silicone rubber solutions, where innovation knows no bounds and where the limits of custom silicone rubber applications are constantly pushed.

We envision a future where our commitment to excellence, sustainability, and customer-centric values empowers industries to achieve their full potential.

Committed To Customers

Elastostar Rubber Corporation thrives through strategic global partnerships, ensuring that we remain competitive, relevant, and well-versed in today's ever-evolving market landscape and international industry trends, products, and processes. With Elastostar Rubber Corporation as your partner, you can rely on a domestic supplier who offers services and pricing that stand toe-to-toe with international standards.

We firmly believe that exceptional customer service is the defining line between being ordinary and being extraordinary.

Elastostar - Crafting Excellence in Rubber

Elastostar stands as the premier custom and standard size extruded silicone rubber manufacturer and silicone rubber supplier in the United States. With a rich legacy of over 22 years, we have consistently led the industry in innovation and precision, providing high-quality solutions that not only meet but surpass your rubber product requirements.

The Elastostar Advantage

When you choose Elastostar, you're not just choosing an extruded and molded rubber supplier; you're selecting a partner dedicated to your success. What sets us apart is our commitment to innovation, quality, and customization. With us, you can expect:

Exceptional Quality Control

Stringent quality control processes ensure every product meets our exacting standards.

Shortest Lead Time Deliveries

We understand the importance of your project timelines. Our streamlined processes guarantee on-time deliveries.

Technical Support

Our team is here to answer your queries, provide assistance, and offer expert guidance throughout your partnership with us.

In House Tooling & Mixing

Our capabilities include the development of specialized tools and the expertise to mix and customize tooling according to unique specifications.

Prototype to Mass Production

We offer end-to-end production solutions, guiding projects seamlessly from prototyping to mass production with precision and efficiency.

Reverse Engineering

We offer reverse engineering services allowing us to recreate and analyze components based on provided samples with precision and accuracy.

Rubber Compounds

We understand that every project is unique. That's why we offer customizable solutions that perfectly fit your requirements. Whether you need custom rubber profiles, rubber gaskets, or rubber seals, we have the expertise to design and manufacture products that match your specific needs with variety of rubber compounds.

- Silicone
- Metal & X-Ray Detectable Silicone
- Conductive Silicone
- Neoprene
- Fluorosilicone
- FDA Grade Silicone
- EPDM
- Viton
- Platinum Cured Silicone
- Food Grade Closed Cell Sponge Silicone
- Nitrile
- Butyl

Rubber Products

We offer wide variety of rubber products with various rubber compounds such as;

- Extruded Silicone Profiles
- Die Cut Silicone Gaskets
- Extruded Sponge Silicone Profiles
- Silicone Sheets & Sponge Sheets
- Molded Silicone Parts
- Silicone O-Rings

Market Served

- Medical Devices
- Food Equipment Manufacturer
- Marine Industries
- Glass Industries
- Wire & Cable Industries
- Construction Doors & Windows
- Pharmaceutical Industries
- Chemical Industries
- Aerospace Industries
- Brewery Industries
- LED Lighting Industries
- Boiler Industries
- Food Processing Industries
- Automotive Industries
- Mass Transit
- Solar Industries
- HVAC Industries
- Dairy Industries
